

CHRISTIAN FELIPE HERRERA DIAZ

AI Automation Engineer | Workflow & Systems Integration Specialist

Bogotá, Colombia (Open to Remote / Relocation) | +57 319 608 2211 | cfherrera.mhd@gmail.com | English B2

PROFESSIONAL SUMMARY

Software Engineer specialized in AI-driven workflow automation, systems integration, and business process optimization. Builds end-to-end automations with Python, n8n, REST APIs, webhooks, and LLM-based AI agents, connecting CRM platforms and cloud services to eliminate manual work and improve data accuracy. Background in technical/application support for global companies across the US, Europe, and Latin America, with strong analytical thinking and cross-functional collaboration skills. English B2.

CORE SKILLS

Automation & AI: Python · n8n · AI Agents · Prompt Engineering · LLM Integration · REST APIs · Webhooks | Data & Reporting: SQL · Pandas · OpenPyXL · Excel (Advanced) · Power BI · JSON | Platforms: HubSpot CRM · Ticketing Systems · Cloud Services | Other: Technical Support (L1/L2) · Process Optimization · Cross-team Collaboration

PROFESSIONAL EXPERIENCE

AI Automation Engineer — HD Contacto Inmobiliario

Jan 2025 – Present

- Designed and implemented end-to-end business process automations using Python, n8n, and AI, streamlining administrative and operational workflows for a real estate company.
- Built intelligent workflows integrating REST APIs, webhooks, HubSpot CRM, cloud services, and external business applications.
- Applied Generative AI and prompt engineering to classify information, extract structured data, summarize content, and automate decision-making within business processes.
- Automated data processing, reporting, and document generation using Python, Pandas, OpenPyXL, SQL, JSON, Excel, Word, and PDF.
- Partnered with business stakeholders to analyze processes, identify automation opportunities, and deliver scalable solutions aligned with operational goals, reducing manual effort and resolution times.

Operations Support Analyst — Nuaav

Oct 2025 – May 2026

- Delivered advanced Level 2 support, resolving escalated technical issues, order discrepancies, and product inquiries from Level 1.
- Diagnosed root causes of platform and integration issues, implemented solutions, and documented resolutions for future reference.
- Maintained and updated the knowledge base to ensure accurate self-service and support information.
- Supported system administration tasks including user account management, permissions, and configurations.
- Identified and implemented process improvements — including automation and templates — to increase efficiency and reduce resolution times.

Gateway Technical Support Specialist — Nuvei Company

Apr 2024 – Oct 2025

- Managed technical support requests by priority level in compliance with SLAs, coordinating with engineering teams on incident resolution.
- Investigated errors and logs to deliver detailed technical analysis to clients and internal teams.
- Led communication with banks, Nuvei partners, R&D, and Product teams on real-time technical issues and escalations.
- Consistently met company and team KPIs while working with Excel, Word, and SQL databases.

Support Analyst — Nuvei Company

Jun 2023 – Apr 2024

- Provided Level 1 support for a payment platform and white-label products, diagnosing tickets using platform and payment-ecosystem knowledge.
- Analyzed logs and transactional data to propose solutions or escalate to Level 2, and led client-facing explanation meetings.

Information Analyst — Databases & Internal Control — *HD Contacto Inmobiliario S.A.S* Jul 2022 – May 2023

- Managed and consolidated databases, performing market analysis, commercial support, and results reporting for sales and leasing.
- Conducted financial evaluation of clients, process audits, and monitoring of corrective action plans.

Logistics Analyst & Straggler Control Supervisor — *Interrapidísimo S.A.* Mar 2021 – Jul 2022

- Controlled and analyzed KPIs, delivering detailed process reports at local and national level using Excel and Power BI.
- Monitored delayed shipments across processes and areas to reduce operational impact.

Account Control Assistant — *Interrapidísimo S.A.* Jun 2020 – Mar 2021

- Reviewed shipment status nationally, verified and filed invoice data, and followed up with coordinators to resolve pending items.
- Managed cash counts and inventories to ensure system data accuracy.
